- Rechargeable parent unit for minimum 24 hours of monitoring

**PHILIPS**  
**AVENT**  
sense and simplicity

# Highlights

## Guaranteed zero interference

Guarantees zero interference from any other device (other baby monitors, cordless phones and cell phones). Provides a secure and private connection using data encryption. You will be the only one who can hear your baby and you only hear your own baby.

## Humidity sensor

The Humidity sensor monitors the correct humidity level, detecting dry air that may irritate baby's throat. Personalised settings help maintain a healthy, comfortable climate in baby's room.

## Temperature sensor

Baby needs extra time to adjust to temperature changes. The adjustable sensor monitors baby's

room for optimal comfort and the personal temperature range settings alert you to adjust the climate when needed.

## Digital signal confirmation

Indicates a continuous connection between the baby and the parent unit with visible and audible link indicators.

## Sound level lights

Uses lights to indicate if the baby makes noise, even with volume off.

## Adjustable sound sensitivity

The adjustable sound sensitivity function will allow you to increase/decrease the microphone sensitivity, to enable you to listen to your baby breathe.

## Lullabies and night light

An integrated night light and specially selected lullabies soothe baby to sleep.

## Parent talkback

Provides the ability to allow you to hear the baby and talk to the baby.
